WP3 - Fire brigade reports and investigations

RESCUE OPERATIONS IN POLAND
GENERAL DESCRIPTION AND EXAMPLES

Krzysztof Łącki - The Main School of Fire Service (SGSP)
Lesław Kwaśniewski – Warsaw University of Technology (WUT)

Action Meeting, Malta, 10-11 April 2012
ANALYZING
FIRE BRIGADE REPORTS AND INVESTIGATIONS

APPROACHES

1. statistics – trends, new risks

2. investigation of exceptional, special cases

OBJECTIVE

conclusions for practitioners in the fields of active and passive fire protection
SYSTEM FOR
COLLECTION AND TRANSFER OF INFORMATION ABOUT EVENTS
ORGANIZATION IN POLAND

1. National Rescue – Fire Fighting System (KSRG) ↔ State Fire Service (PSP)

2. PSP - professional formation, uniformed and furnished with specialized equipment designed to fight fires, natural disasters and other threats

3. PSP - based on the chain of command, subordinate to the center - supervised by the Minister of Internal Affairs and led by the Commander in Chief of the PSP

4. PSP - promotes the collection and transfer of information about events

5. "SWDST" – teleinformation system implemented in four levels of command
SYSTEM FOR
COLLECTION AND TRANSFER OF INFORMATION ABOUT EVENTS

SWDST

1. "SWDST" – primary function is to collect information about personnel, resources and capabilities at the disposal of Rescue Fire – Fighting Units (JGR)

2. development, collection, and transfer of information about events to a higher level of PSP

3. each action taken by the Rescue Fire - Fighting Unit (JRG) is recorded in the program

4. after the end of an action a report is created and introduced to the system by the standard special forms containing check boxes, and possibility of adding a description

5. the report is forwarded to a higher level of command where information is collected and processed
SYSTEM FOR
COLLECTION AND TRANSFER OF INFORMATION ABOUT EVENTS

EVENT CARD

Part I - section on notification
1. Notification – automatically allotted number
2. Date and time of notification
3. Localization – address for notification
4. Object - the type of object
5. Floor / Description of the floor
6. Additional information - description of the event
7. Received – how the notification was obtained
8. Details of the applicant
9. Notification - service / entity, which was informed about the event
SYSTEM FOR
COLLECTION AND TRANSFER OF INFORMATION ABOUT EVENTS

EVENT CARD

Part II - section on operated events (action)

1. Event ID
2. Type of event (fire, local threat, exercise, … etc)
3. Running unit
4. Area of operation
5. Start time of event - date and time
6. Time for localization
7. End time - date and time of end of the event
8. Subtype of the event (., flood, forest fire, apartment fire, … 30 categories)
9. Geographic coordinates
